MEGABITE – Bead Wedge

The MEGABITE Bead Wedges are designed to hold the tire bead down while breaking the bead in other locations of the wheel, ensuring a safe and efficient process. Compatible with single and 3-piece bead breakers, they prevent the bead from reseating, reducing stress on both the tire and the bead breaker tool.

Lightweight aluminum construction.

Markings for easy referencing of gap size.

20436 (1 cm, 4 cm) or 20437 (3 cm, 4 cm) sold by each

Teeth design to better grip onto tire while positioning or placing bead wedges against wheel.
