

RUBBERHOG®

Most common buffing tools can cause damage here.

Rubberhog #140 provides ample clearance at sidewall.

Rubberhog Product Bulletin

Part No.	ASCRH-140
Shape	Contour Wheel
Diameter	1-1/4"
Bore	3/8" - 24
Coating	Fine [170]

► Rubberhog #140 Contour Wheel

- Buffs the inner liner of low-profile tires without damaging the bead area.
- Features the Rubberhog SSG coating for proven performance.
- Solid machined-steel construction for extremely smooth operation.
- Superb control, comfortable to use.
- Fully-coated top eliminates exposed threads; less risk of liner damage.
- Preferred by many for **any** passenger or light truck repair.

Ask a Hanco Representative to demonstrate the improved buff quality and all-round superior results of the Rubberhog #140 in your shop.
